

Mining & Energy Services Management Capability Statement

Business Improvement Advisory understands the unique challenges facing mining and energy companies in their operation. From project management to procurement to contract management to logistics and fleet management. We have a team who specialise in assisting mining resource and energy companies to deliver services, supply chain logistics, start-up and continued operations.

Our Principals Kym Clayton and Bryan Schriiffer have in-depth knowledge and experience in mining and energy. Kym has supplied infrastructure and critical materials to both the oil and gas and mining sectors and is a member of the QEC and QUPEX.

Bryan has experience as a supplier to gold mining operations and heavy machinery businesses. He is also experienced in end to end procurement, sourcing, expediting, project management and contract management. He has supplied consultants to mining and resources sectors and is a member of QUPEX.

Business Improvement Advisory brings the following skills to the mining, energy and resources sectors:

- End to end procurement & contract management
- Supply chain, logistics and inventory management
- Sourcing and expediting
- Industry experienced consultants
- Project management
- Risk management and business negotiation
