

Transport & Logistics Management Capability Statement

Business Improvement Advisory understand that transport companies in Australia face unique challenges in their operation, logistics and fleet management. We have a team who specialise in assisting transport companies and operators to improve their profitability, operation and business management.

Whether you are a heavy transport, bus, rail, shipping, road transport operator or operate a marine business, we have a team who are industry experienced and have in depth knowledge to assist. Our Principals Bryan Schriiffer and Kym Clayton have in-depth knowledge and experience in supply chain, logistics and transport. Bryan holds a Master's Degree in Professional Studies majoring in Transport Management from Lincoln University in New Zealand and has written several white papers on transport management and his dissertation was on Road Infrastructure Transport vs Rail Transport to move Waste using a triple bottom line approach (3BL) of Economic, Social and Environmental.

Kym has worked in international businesses including supply chain and logistics and managed multiple joint ventures in manufacturing and distribution and logistics in China.

Our team have worked in:

- Fleet management
- Heavy vehicle maintenance, lubricants and fuels
- Time critical freight movements and logistics
- Supply chain and logistics
- Warehousing, distribution centre management and category management
- End to end procurement
- Contract management
